

# ASR for Kiosks / Table Service

## Required component

- PreParser 2.3.6.458 (location have to be added into agreed group (for BKS setup orgniazation name is : preparser-2.3.6.458 ) - then exception will be applied into DVR during next Installer run
- EZEventHandler 3.7.0.44
  - Must be installed for now manually + configuration from file [https://dtusa-my.sharepoint.com/:u:/g/personal/afolek\\_dtiq\\_com/EZhQFkRnCj5lpuoVMv64XdIBH-RkYYFk2M5DdWeN7tdPLg?e=3xSZQQ](https://dtusa-my.sharepoint.com/:u:/g/personal/afolek_dtiq_com/EZhQFkRnCj5lpuoVMv64XdIBH-RkYYFk2M5DdWeN7tdPLg?e=3xSZQQ)
  - [https://dtusa-my.sharepoint.com/:u:/g/personal/afolek\\_dtiq\\_com/EbMazX1WnIRKtFuPWrrJmbsBRemzGMP4s6Pt\\_da6\\_7e45A?e=oHOaSP](https://dtusa-my.sharepoint.com/:u:/g/personal/afolek_dtiq_com/EbMazX1WnIRKtFuPWrrJmbsBRemzGMP4s6Pt_da6_7e45A?e=oHOaSP)
- ASR 1.9.0.15 ( to be installed on BOH ) with specific configuration for GND Support
  - [https://dtusa-my.sharepoint.com/:u:/g/personal/afolek\\_dtiq\\_com/EUuoITjycGRGIOMTk69VYDUBHv1DaqRWREVZsS9W1I-kjw?e=bCEDSj](https://dtusa-my.sharepoint.com/:u:/g/personal/afolek_dtiq_com/EUuoITjycGRGIOMTk69VYDUBHv1DaqRWREVZsS9W1I-kjw?e=bCEDSj)

## Details

### ASR 1.9.0.15

- Daily processing of Grind Export Files
  - creating GNDData messages received from BOH's GND files
    - GNDData messages are created properly from received BOH's GND files
  - adding 'GndEnabled' flag to SpyMessages determined by 'readGNDFiles' flag value in service configuration
    - When 'readGNDFiles' flag is set to 'true', and no GND files has been yet received, 'GndEnable = False' is added to SpyMessage.
    - After first GND files processing, service is setting 'GndEnabled = True' in every new SpyMessage.
    - When 'readGNDFiles = false' then 'GndEnabled' flag is set to 'false'
  - creating dictionary messages from files stored in Data directory

### Preparser 2.3.6.458 contains following features:

- adding 'IsHeader' flag into SpyMessages message determined to GndEnabled flag value
- creating and updating dictionary files with dictionary messages received form BOH
- extending SpyMessages and GNDData messages with data from dictionary files
- adding extended information from SpyMessages into GNDData message
- resending SpyMessages with 'IsHeader = False' when headers have been sent but then no GNDData messages have been received through 48h
